Ms. Bettina Bien Greaves,
Foundation for Economic Education,
Irvington-on-Hudson, NY 10533

Dear Bettina:

Thank you for sending me the material on your new collection on Austrian Economics.

Feel free to use the following sentences (or part of them) in any "blurb" that you think may be helpful:

Bettina Bien Greaves is to be congratulated on editing this highly useful volume, containing a well-chosen selection of classic papers on the Austrian tradition in Economics. Together, these papers throw much-needed light on the character of the Austrian contribution, and, indeed, illuminate an important slice of the history of modern economic thought.

All best wishes,

Sincerely yours,

Israel M. Kirzner
Professor of Economics
