Dear Jim:

On the cover the box is not good. The border on the right and bottom is too wide. This looked all right on the Public Housing piece, although even there you did not have it as thick as it is here. See how much better the cover of Personal Practice looks. If it is not too late I wish you would change it; but if the negative has been made let it go. However in future, do not let the borders differ from the Personal Practice size.

Can you improve page 2? See sample of Bargaining that I have sent you. Don't forget the Foundation signature at bottom of page.

Cordially,
