THE REMARKABLE CASE
OF DOROTHY L. SAYERS

Catherine Kenney

1991 *Mystery Writers of America Edgar Allan Poe Award Nominee*

1991 *Mystery Readers International Macavity Award Nominee*

One of the most fascinating comments made about Dorothy L. Sayers is that she wrote "real novels." Now available in paperback, *The Remarkable Case of Dorothy L. Sayers* considers the author's place in the history of detection as well as within the larger tradition of the English novel.

"An extraordinary analysis of Sayers' fiction, her feminism, and her fervor for theology . . . a work of remarkable scholarship."—*Chicago Sun-Times*

"Kenney handles with virtuosity and scholarship a wide range of sources . . . to produce a coherent and stimulating argument which does two things—to place the best of Sayers's novels firmly in the classic mainstream of English literature where they assuredly belong; and to anchor her work firmly to the time in which she lived and wrote, both in a literary and a general historical sense. A notable achievement."—*Philip L. Scowcroft, Dorothy L. Sayers Society*

SAVAGE EYE

Melville and the Visual Arts

edited by

Christopher Sten

Melville's interest in the visual arts and the translation of that interest into his writings is at the center of this new interdisciplinary study of one of America's most celebrated writers.

Melville's lifelong engagement with the visual arts has been noted in other works, but only *Savage Eye* suggests the extraordinary depth and range of the author's multifaceted interest in the subject. Editor Christopher Sten has collected 13 essays from 12 specialists in the field to produce this ground-breaking study which connects Melville's writings with topics relating to the arts of painting, printmaking, sculpture, architecture, and landscape design, as well as art history.

Sten's comprehensive introduction provides readers with a historical overview of the subject, detailing the many works of art Melville knew and commented upon at each stage of his career. He explains when and where in Melville's wanderings throughout America, Europe, and the Near East he saw these works, then describes how Melville made use of the life and work of these artists in his own fiction and poetry.

Savage Eye argues persuasively that the visual arts sources are comparable in importance to the literary arts in the formation of Melville's work and vision. The contributors thus lead the reader to an appreciation of the rich array of artistic images that were available to Americans of the previous century, and thereby extend not only our understanding of Melville, but of ourselves and our collective history.

"A valuable addition to Melville scholarship, this study is an examination of one area of influence which has not fully been explored before. It provides Melvilleans with a full and unprecedented overview of the relationship between Melville's writings and the visual arts, affords new insights into Melville the writer and, in some instances, offers new perspectives on individual works."—*Lea Newman, Professor of English at North Adams State College and author of A Reader's Guide to the Short Stories of Herman Melville.*

COLLABORATIVE FORM

Studies in the
Relations of the Arts

Thomas Jensen Hines

Collaborative Form attempts to show the nature and limits of works of art that are made up of several art forms. Whether the components are poetry and graphic works as in *Lettera amorosa* by René Char and Georges Braque, or poetry and music as in *Herzgewächse* by Maurice Maeterlinck and Arnold Schoenberg, the principles of collaboration are the same.

Once the collaborative works are examined, their similarity to other art forms with regard to laws of temporal necessity, nonaddition, multiple interpretation, and unity is discussed. Collaborative forms are then shown as unique examples of the combinative effects of the arts. Through the process of interpreting individual works and attempting to summarize the form, Hines forces the reader to look beyond the conventions of the constituent arts at this uniqueness.

"An excellent book on the arts . . . will make a valuable contribution to studies in comparative literature. Provocative, original, and extremely timely."—*Anne Hyde Greet, University of California, Santa Barbara*
