RE Charges on Show Me
Any Other Country

The cost of printing for the 50,000 copies is \$1230.65. This charge is based on selling the 70 lb. paper at our inventory price, although that is higher than the market price of paper today. We are able to do this on this job as the printer was able to create a saving in the press time. This price is still a little lower than my estimate.

There will be no trucking charges to the airport, as National Airlines sent ~~there~~ truck to pick up the packages.
