More about *Super Parents Super Children!*

Do you often wonder if you're doing the best you can for your children? Do you feel, at times, that you've been unfair with them, or that you've handled a situation badly?

The majority of books on child rearing offer good ideas for solving specific difficulties, but they have no consistent rules which can be applied to all age groups and all problems.

Here, this book departs radically from the standard literature. It describes a simple philosophy which may be applied to all aspects of the parent-child relationship, and thus provides basic guidelines for solving any problem which may arise.

It aims to show that parents and children can live in mutual respect, esteem, and happiness, and share the same values—values so elementary that they can be thoroughly integrated by the age of five.

If you would like to have the joyful experience of sharing your home with happy, confident, independent, responsible, and self-disciplined children, then this book is for you!

Topics include:

- Hit and Miss Method
- Food, Feeding, and Freedom
- Toilet Training
- Bed Time and Sleep
- Toys and Ownership
- Discipline
- Sibling Rivalry
- Sex
- Adolescence
- The Ultimate Child
- And much, much more!
