Mrs. Bettina Greaves
The Foundation for Econ. Educ., Inc.
Irvington-on-Hudson, New York 10533

Dear Bettina:

As you know, I was instrumental in bringing the private papers of Dr. Mises to Grove City College, but I had nothing to do with the preparation of their classification and publication. That was the work of Dr. John van Till, who was retained to do the job for Grove City College. I was asked by the College to help distribute the results of his work and, of course, sent one to The Foundation. However, any praise, inquiry, or complaint should be directed to the College.

Best wishes,

Sincerely,

Haus
