for
greatness!**

What a time for greatness!

For 31 years The Warner & Swasey Company has published messages expressing our beliefs, our hopes and fears for our Country. Typical examples appear on the pages which follow. Many thousands of businessmen, workmen, housewives, men in the armed services, in politics and in every walk of life have written us, agreeing with these beliefs. Some others—not many but some—have disagreed; that is the wonderful American privilege.

In recent months the number of letters has increased markedly. More and more Americans are deeply concerned, as we are, with inflation, deficits, weakness. Some unions force un-earned wage increases which are breeding inflation; too many in government are more interested in votes than the fiscal solvency of our government, and so continue to foster wasteful programs and bureaus; men in high places (government and business) compromise with our enemies abroad and so leave a deadly legacy to our children.

It has been said that when crucial need arises, America produces a leader—a great leader. We believe and the thousands who write us believe the need is here—desperate need. Now *is* the time—*what* a time for greatness!
