

CONGRESSMAN CLARENCE BROWN,
member of the Buchanan Committee
in addressing Members of Congress
during the debate on the Rumely
citation said:

“This citation for contempt against this Dr. Rumely and the Constitutional Committee is here for one reason and one reason only—because a man named John T. Flynn happened to have the courage to write a book against state socialism, “The Road Ahead”. Certain people have been trying to find out, if they can, who bought these books. Why, I bought some of them myself and distributed them to a few of my friends because I believed every honest-to-God American ought to read about the danger which confronts this country.”

STATEMENT BY SUMNER GERARD, TRUSTEE

Dr. Rumely, at the risk of imprisonment, is fighting to safeguard your own and your children’s heritage of a free press, which is an indispensable bulwark and with-

out which our liberties wither away. Informed observers in Washington report that the Buchanan Committee is trying to throttle “*The Road Ahead*” and other books distributed by the Committee for Constitutional Government. This is your fight. You should help by buying and distributing the books they would suppress:
