If you substitute smythe sewing in 32's, for perfect binding, glued cover trimmed flush, cover to bleed, it would add \$422.00 to the above price. May we point out something that may influence your decision in respect to the binding? Perfect binding requires a 3/16" trim on the binding edge which adds approximately \$150.00 to the paper cost. Shifting the pages in the form because of the two editions (paper covered and cloth over board) adds another \$200.00 to the cost, or a total of \$350.00. This extra cost can be eliminated only if you are willing to accept a reduction of the binding margin (reduction of the trim) on the paper covered edition.

We hope we may be privileged to serve you.

Very sincerely yours,
