Editor Newsweek.

Dear Sir -

I see in your columns, where one or two billions subscribers find fault with your contributor Mr. Henry Haylett; & I might say in this connection, that they should use their heads & mind instead of criticizing. Mr. Haylett talks more common sense than almost any of the others, and it's high time that God's leaders pay some attention to his comments. Waste & more waste, & socialism & more socialism will bring us to a crisis, & as the old Chinese philosopher once remarked, "It's later than you think".

Yours very truly,

Jesse French, Jr.
