Dear Sir:

Outstanding among the varied entertaining and informative articles in NEWSWEEK down through the years, quite a number, have been your many contributions. Maybe preferably stated, the **VERY** many.

But your appraisal of the deficit budgeting in the Jan. 10th. issue, is just out of this world!

A simple statement of elemental economic facts, that used to be indelibly impressed, on even childred of former generations. Lost strayed, or mislaid down through a generation and a half, or two.

Dont Ike and the boys read these facts? They simply cannot be disbelieved.

Magnificent factual reporting Sir! Keep hammering away. Like water, it shòuld favorably affect even the stone, ultimately.

Cordially yours,
