Dear Sir:

Permit me to applaud your Nov. 14th NEWSWEEK article STEVENSON'S FARM CLAPTRAP. I live in the farm belt and know the economic influences and results. You are 100% correct in your analysis.

Would that every member of CONGRESS could read and understand your article. I am calling it to the attention of my Senators and Congressman.

I enjoy NEWSWEEK greatly and always find Business Tides of special interest. When you have been ill, I feel disappointment in missing your weekly message, and personally regret your indisposition.

Yours sincerely,

*Searl S. Davis*
