Re: Seminar-Study Groups
Laissez Faire Economics

Dear Chet:

I have a much younger brother in California who has a degree in economics (U.S.C.). He has become really interested in the LeFevre, VonMises, Hayek, Harper type approaches. I've sort of lost touch with the current (one or two week) seminars like Bob LeFevre put on. Could you recommend a couple?

I'll include a couple of copies of this letter, if you will send them on to the recommended institutes so they can write my brother direct. I've sent him a copy of this letter. Following is his address:
