Mr. C. W. Anderson
Executive Vice President
Associated Industries of Quad Cities
212 - 19th Street
Rock Island, Illinois

Lebray

Dear Mr. Anderson:

Mr. Read has loaned me his copy of the Associated Industries statement on Federal Labor Relations Laws. I hope this is the proper way to convey my appreciation for the excellence of the presentation.

Until a few more of us begin to grasp the idea that bargaining, whether for wage or for price determination, cannot be accomplished in political fashion, we'll undoubtedly have lawmakers making laws in an attempt at the impossible. I suppose the first step is to see that the present labor laws are unworkable. Then comes the long hard next step of seeing why no law is needed for those whose desire is to bargain with one another.

Sincerely yours,

Paul L. Poirot
