Dear Dr. Jewkes:

As indicated in the attached carbon of my letter to Dr. Hayek, I have gone far enough in my dollar exploration to be reasonably sure of success under certain conditions.

These conditions include attendance of a goodly number of strong, well known leaders from England and the Continent with attention directed to subjects of importance and depth.

As you know from Dr. Hayek's letter of July 27th, he is expecting to be in Europe very shortly. I assume that you are in touch with him or will be and it is my high hope that the two of you will provide me with the information desired at your earliest convenience.

Dr. John Jewkes
