Bear Sir,

It is singularly refreshing to read Mr. Henry Hazlitt's articles in NEWSWEEK. Here is one of the few Americans who has understood the real implications of the Suez controversy and the folly of the State Department's attitude. His article in your issue dated 14 January 1957 should be sent to the UNO delegates, especially those who allow themselves to be impressed by Khrisna Menon's daily outbursts which recall the best he could produce when he used to rant on a soap box at Hyde Park Corner London before the war thereby providing the best Sunday entertainment obtainable at the time.

Yours sincerely,

Charles I. Margry
