

January 1. Juanita got this year off to a good start by phoning me a Happy New Year from HER Party. And I wished HER the same -- a Happy Togetherness! And I wished Twiggy a Happy New Year.

Wondering during the night what an appropriate New Year's Resolution should be and couldn't think of one. Why? My several prayers each day are all resolutions to seek the best and be as near the best as possible. Many persons, I suspect, make a resolution on this day because it's the thing to do. Then done, that's that -- forgotten!

Following a late breakfast, phoned Juanita. Away soon to church and singing.

Miko arrived at 0900. To St. A where I played 6 holes -- 10 through 15 -- Miko, on account of his back, not playing but carrying my clubs and betting that I wouldn't score so-and-so on each. I won all six -- having only one not-so-good-shot. He lost \$1.00, another good start for the New Year. Home to Twiggy at 1100.

On account of the day ahead and wishing to view football had an early tippie, sopa and Feta. In for our laydown at 1130.

Picked up Juanita at 1500. SHE did Twiggy's dinner and other chores. Jabble, Vicky and Rubye arrived at 1530 and off we went to Miko's. What a nice tippling and hors d'oeuvres Ann and he put on, a splendid hour.

All seven of us went not to Charr but to Chart House, a very nice place right on the Hudson. The food is good. While there about an inch of snow fell -- no golf tomorrow.

Miko and Ann to their home and we to Shanty. Jabble drove my car, taking MS home. His car has no snow tires.

Twiggy and I to TV football at 1920. After the Cowboys won, he and his roommate to bed at 2040. Still snowing.

Phoned TSLGOE at 2042.

January 2. To FEE by myself at 0845, Twiggy outside in about 4 inches of snow. Later, brought him to FEE -- he's freezing. Will try to do some work on my piece.

Phoned Juanita at 0905. Am hoping to see HER later.

Philip vanderElst phoned from New Jersey about a German friend of his -- Wolfgang Muajahn -- seeking counsel on small business operations, that is, case studies. Maybe I can help. He will phone in morning as to whether he will or will not come.

To Shanty at 1115 -- the usual light luncheon and Twiggy and I in for our laydown at 1150.

Juanita arrived at 1515 and with me for an hour -- a happy hour!

What upsets in football!

Twiggy, Brian and LER had a perfect dinner -- all HER doing.

Back to boob-tube. What crapo about the University of Washington --

ideologically one of the worst and presented as one of the best. Maybe at football! The Russians are good at singing, dancing, and so on.

Twiggy and LER to our room at 2025.

Juanita and HOBF had a lovely telephonic Good Night at 2058.

January 3. We conclude our income for December this day -- one of the best months FEE has had. Income exceeds expenditures by \$98,000 and the "Kitty" is up \$8,000 from a year ago.

Wolfgang Murjahn, a student in Koeln, West Germany here for 45 minutes. Think I gave him some help on his project. A good lad.

Sam Husbands phoned -- 20 minutes on numerous matters, particularly about Wally Mickleburgh.

Wrote the following to P/L for February FREEMAN:

Dear Bill:

Writes Professor E. G. West - p. 116 - "It is an unusual circumstance that calls for unusual men. Prince Philip could well be one of them. Indeed, he is!

For confirmation and encouragement, see "Philip of England on the Erosion of Freedom."

We believe Prince Philip will have earned your respect for the ideas in this article.

Jim Taylor of Reed Larsen's organization wanting FEE to sign a memo to Morris Cox of Volker Fund. Think I will not.

Ed and then Paul went over 5 pages of my present essay making only a few minor changes in phrasing, none in ideas. Now for the conclusion.

The appended "The Golden Rule of Life" is worth preserving.

J y L to Shanty at 1650. Again a splendid dinner, preceded by tipples.

To boob-tube, Juanita winning 60¢ and with me until 1950 - Golden Moments - Miko driving HER to a church meeting.

Twiggy and LER to sleeping room at 2015, LER trying to think how to conclude the current tractate.

January 4. In came Tecla's donation in the amount of \$10,000 and other generous ones -- all-in-all a \$19,700 day.

Sam phoned to touch bases. He'll give John Rust a call -- with Dean Witter in Charlotte, N.C., about a one grand donation to FEE that's a possibility.

Sudha Shenoy, along with a student of Kirzner - Richard Ebeling and wife -- here for a visit and a half hour with me.

Completed "The Conservation of Energy," copy appended.

I confess to being idea-less. Sil vous plais!

Juanita y LER to Shanty at 1650. SHE did everything except Solely Sole Martini. All perfecto! SHE stayed with me through boob-tube, winning 90¢, and until 1955 when off to choir practice, Margaret picking HER up. We'll say our prayers for each other and Twiggy. He and I to our room at 2020 for a bit of reading.

January 5. Phoned Thurston Greene, a lawyer in NYC and introduced to FEE by Miller Upton. He and wife may be at next months seminar. Will let me know tomorrow.

Phoned Sam, sold 3 shares of A T & T at 60½, a contribution from Bob Madden. Sam is now a Vice President of the new firm: Dean Witter Reynolds, Inc.

Hope I can make something of "Reflections on Hope and Fear," a stumbling start today.

Paul comes up with a pretty good suggestion for perhaps May NOTES, entitled "Onward." It features excerpts from four lectures given 10 years ago at my 70th birthday affair: Hazlitt, Friedman, Hayek and Rogge.

J y L to Shanty at 1650. What a high old time we had until 1740, MS taking off for home.

Following a splendid dinner, Twiggy and I to boob-tube -- and I mean boob! Juanita won 55 Cents.

Twiggy and LER to the room at 2015. Phoned Juanita at 2040. Poor LER had to eat all alone. SHE should eat with HOBFF three times a day!

January 6. Phoned Jones at his home in Guatemala City. The letter inviting him to do our Annual Meeting lecture arrived only yesterday. He accepts with pleasure. Has bought 17 acres of land on which he will build their new facility. Art Kemp is presently in G.C. I am pleased with all he told me.

Thurston Greene phoned. He and wife will be at our Feb. 10-12 Seminar.

Doc Bill Rock phoned. Will pay us another visit within the next week or two.

Phoned Rogge, reporting the good news about Jones. Also a bit of chit-chat about Lilly Endowment. Ben shot an 82 last week at Sea Island's tough golf course.

Phoned John Sparks at his office announcing I had invited Jones to do our Annual Meeting lecture. John likes the idea.

J y L to Shanty at 1645. What a lot of chores SHE did! HER turkey, stuffing, turnips, tipples and so on. Off for home at 1755. Brian, Twiggy and LER fared exceedingly well.

To boob-tube -- Juanita losing 85¢.

## THE CONSERVATION OF ENERGY

Philosophy should be an energy; it should find its aim and its effect in the amelioration /improvement/ of mankind.

- Victor Hugo

As ever so many are aware, the U.S.A. is experiencing an energy crisis. The reason? Our more or less well-known sources -- coal, oil, gas, nuclear -- are being energetically controlled by political ordainers -- those who order our lives. They know no more about energy than I do! And they are tampering with life's sustenance.

Every form of life manifests energy. No life, be it a blade of grass or a human being, would ever have existed had it not been for this or that variety of energy. This sustainer of life ranges all the way from atomic to solar energy, from waterfalls, to coal, gas and, for all we know, to radiations from outer space. In the absence of energy there would be no life of any kind. Thus, it is supremely important that we learn not only the means by which energy can be conserved, but how to increase it.

Herbert Spencer suggested that the answer must begin with the individual:

It is for each to utter that which he sincerely believes to be true; and, adding his unit of

influence to all other units, leave the results to work themselves out.

By unit, Spencer refers to such infinitesimal bits of truth as each individual may perceive. No two persons experience identical glimpses of truths. Indeed, no individual's perceptions are precisely the same today as they were yesterday. These tiny bits we experience are in constant flux day in and day out.

When your and my units are added to all the other units, we "leave the results to work themselves out." Of course, they will best work themselves out to the extent that individuals are free from the dictates of those who are unaware of how little they know.

If individuals and their ideas are free of such inhibitions, how will the results work themselves out? Trillions times trillions of tiny bits of expertise will merge into a truth that is trillions of times greater than that held by any single person. Trillions of tiny sparks combine into a great and glorious light. This is the most difficult point in politico-economic theory, but once this point is grasped the free and unfettered market comes to light.

Should the free market be permitted to prevail, we would have no more problem with energy than with its sources. The results

would be as magic as the causes. Thus, what a wonderful opportunity is opened to the very few who have an awareness of this magic!

The question is, how are the few to cash in on this opportunity? What are the right methods? For, if the tactics be wrong, they will only add to the disaster so heartily deplored.

Victor Hugo passes on to us what amounts to a secret guideline. Solve the energy problem, as other problems, by bringing another form of energy to the rescue: philosophy! The following is my way of aiming at the improvement of mankind by calling attention to the wrong ways that the right ways may come to light.

o Forget the "selling freedom" notion!

Right method calls for concentration on the improvement of the most approachable person on earth -- one's self. This is practical because accomplishment is possible. This tactic disposes of the numbers problem -- the impossible, selling the masses.

o Do not seek followers!

It is an inordinate waste of time to seek followers. What seek ye then? The achievement of understanding and clarity of explanation, that is, qualities worth seeking so that

those who wish to learn may come upon enlightenment. If you are successful, those with inquiring minds will find you out. All such achievement is a response to the law of attraction.

o Avoid popular jargon!

The language in everyday use is wholly inadequate -- more confusing than enlightening -- when trying to explain how creativity at the human level works its wonders. Finding words for common sense is an endless chore but it is the task for achievers.

o Avoid anger!

Anger has a distractive rather than an attractive influence. All that one can learn from angry actions is never to use that approach. What then? Have fun! Working for freedom is joyous.

o Be not downcast!

As Goethe wrote: "Miracle is the darling child of faith." Pessimists, those who insist that a return to the freedom way of life is hopeless, reduce rather than increase the chances. Success is spawned by the few who sincerely believe that the right will some day prevail. History bears witness to this fact.

o Never resort to name calling!

Calling ideological adversaries "fools" or to even think of them as such is to assign that derogatory status to self. True,

they do not know very much, nor do the name callers. By calling you a fool, I label myself one. Let criticism be directed at fallacious notions, never at persons!

o Beware of short-run gains!

Short-run gains, if not consistent with the long-run objective, take one down the wrong path. A tricky phrase may cause another to say, "I agree." That's a house built on sand; it will quickly fall. Freedom of one and all to work creatively as they please is an eternal verity and should be so understood and explained. Let the long run -- eternity -- be the guide to human action.

o Do no wrong to anyone!

As Confucius declared about 2,400 years ago, "Do not unto others that which you would not have them do unto you." If you are opposed to being plundered and having others dictate how you should live your life, then plunder no one and never attempt to rule over others. This is the oldest and wisest of all maxims -- the Golden Rule. When observed, each individual is free to act creatively as he or she pleases -- no man-concocted restraints against personal emergence. For freedom's sake, let each of us be an exemplar of the Golden Rule!

Admittedly, the above suggestions run counter to the views of many freedom devotees. The reason? They observe the

advance of socialism through the use of coercive measures. But what they fail to see is that the tactics for destroying a free society are the very opposite of those required to create a free society. Never employ a destructive method to achieve a creative objective!

Finally, our gratitude to Victor Hugo who in his great novel, Les Misérables (1862), gave us an invaluable truth: philosophy should be an energy which finds its aim and effect in the improvement of mankind. Here we have an intellectual energy that assures, not only the conservation of those energy forms by which we live and prosper, but their increase. Summarized, this is the freedom way of life!

Phoned HER at 1930 to report on the outcome and to wish HER a Happy Good Night, SHE and the Brown Clan off for an evening at Aunt Mae's. We'll say our prayers for each other and Twiggy. He and LER to our room at 2015

January 7. This Saturday morning's mail skimpy. Am answering it.

Phoned Juanita Happy Shopping.

After writing a paragraph on my piece, took off to St. A to watch the Douglas matches. Met several old friends, particularly Stan Neil. Stopped for a posey for My Posey on way home. Twiggy greeted me at 1140. Had a tippie with a v.g. ministrone soup. In for a laydown at 1220.

Juanita arrived at <sup>1600</sup>2010. We had nearly four hours together and what a dinner SHE, Twiggy and I had. Golden Moments. Departed for home at 2000, Twiggy and I in for the night at 2020.

Phoned Juanita a Blessed Good Night at 2050.

January 8. To FEE at 0830 to do a bit of work on "Reflections on Hope and Fear," Twiggy on guard.

Phoned Juanita at 0906. SHE will think of me in every other note during church singing this forenoon.

To St. A at 1010, watching Douglas matches, staying to 1120. Not supposed to rain until tomorrow but it was coming down. Hurried to soaking-wet Twiggy who has been left in his compound. Had my usual and in for our laydown at 1210.

Juanita arrived at 1500, cooked Twiggy's dinner and -- affirmative -- departing for a home dinner at 1545.

Miko and Ann arrived at 1620. We had tipples and watched golf. Departed at 1510 for Beau Rivage. On account of weather only a few were present. Rudy, the head man, and Charley, were very nice to us. The dinner excellent. Back to Shanty and Twiggy at 1930, Miko and Ann departing at 2000. Watched Bob Hope for a few minutes and Twiggy and I to our room at 2040.

Phoned Juanita a Blessed Good Night. Buenos Noches!

January 9. Ralph Smeed phoned from Caldwell wanting my views about Bob Bell as one capable of running their Center. By all means have a hard look at Bob.

Two and one-half pages completed and edited on "Hope and Fear."

At least 20 years ago while at John Hendon's in Birmingham, he gave me a remarkable knife and with it a membership in his Knife Club. Today, I received another knife from his widow. I'm still a member of his Club.

J y L to Shanty at 1650. What a dinner: Jaffe's steaks, HER salad, steamed beans, and half-bakes. To boob-tube, Juanita winning 50¢. With me until 2000 (Golden Moments) Miko driving HER home. Twiggy and I in our room at 2020 for a bit more reading of Ralph Bradford's last chapters in ONE MAN'S LIFE. And what a life!

Phoned MS at 2045. Blessings!

January 10. Didn't take long to answer my mail so, aside from shopping, spent all forenoon on my tractate. Finished. Will await with interest the editing by Ed and Paul.

Jaffe phoned from Chicago pleased as punch over my high estimation of his experimental filets. Says this prompts him to go ahead on a big scale and sell to supermarkets.

Ed and Paul give my piece some minor editings -- only on a few phrasings, not on ideas. Now I shall check with Ralph Bradford about using his writings for my concluding paragraphs.

A long phone talk with Ralph. He is flattered with my use of his ideas. Appended it is. I like it and so does Juanita.

My friend, Dick Foley, phoned from Portland, Oregon at 1640 ordering 50 copies of THE LAW and 50 copies of ECONOMICS IN ONE LESSON. That gent is tops!

J y L to Shanty at 1655, SHE doing everything, leaving for home at 1750.

Twiggy, Brian and LER had a perfecto dinner; that little pal of mine and I to boob-tube, Juanita winning 5¢.

To our room at 2000. Phoned a Blessed Good Night to MS at 2039.

January 11. In came the galleys of VISION. This will keep me busy for a couple of days.

Imagine, a \$500 donation from Argentine -- my friend, Billy Yeatts.

Bill Rock phoned. Wants me to do a lecture Tuesday, the 24th, at his college before businessmen, students and faculty. Will give FEE \$500. He will be here Friday to see Ed and me.

Husbands phoned to touch bases. Gold is now 172.

Patty Newman phoned from San Diego. Wishes two of their young folks to have an interview with me to be published in their Journal -- INK. They'll be in touch as to exact date.

Most of day reading galleys.

J y L to Shanty at 1650 -- WEE-2 had filet of Red Snapper, etc. All perfecto! TGOM with me until 1900, Miko driving HER home, SHE off for a singing affair at Andruss Home. No more word between us until tomorrow.

Twiggy and L ER to boob-tube (Juanita lost \$1.20!)

Pyramid Show v.g. That nice little fellow and Reado in our room at 2015 for some more reading of Bradford.

January 12. My old friend, (83) Spruille Braden, passed away.

What a nice touch-up Fred Eager has done with DaBoll's "I Am a Millionaire," copy appended.

## REFLECTIONS ON HOPE AND FEAR

Hope is like the sun, which, as we journey toward it, casts the shadow of our burden behind us.

- Samuel Smiles

Hopes and fears, from the sublime to the ridiculous, beset all of us all of our lives. Such aspirations and dejections might envision periods of time ranging from the momentary to the eternal. But our concern here is with the hopes and fears of freedom devotees in our times. And let us begin with the hopeful.

Hope is one of the mainsprings of human progress. It can, indeed, be likened to the sun. As our hopes for liberty are strengthened -- as we journey toward their realization -- our burden, the authoritarian shadow, is cast behind us. Hope for the ideal leads to intellectual enlightenment, and darkness has no resistance to this light!

Hope has several essential elements, three of which are here examined:

### o Expectation

This is born of wanting to know more and to have more -- materially and/or intellectually. There is no stage in human progress -- ancient or modern -- when expectation should subside. Indeed, the more we progress the more should this yearning for learning stimulate our actions.

The president of a leading auto firm remarked to me in 1954, "The problem of production has been solved." No expectation of the autos to come! Actually, the problem of production was no more solved in 1954 than today -- or prior to the invention of the wheel! To conclude otherwise is to declare expectation at an end -- hope deadened.

Expectation includes items not possessed but hoped for.

Example: there would not be even one pencil had not the value of pencils been envisioned. Hope for the what-is-not is the genesis of the what-is and of the what-will-be!

o Confidence

Progress is attained by those who have confidence in winning.

From the English poet, Alexander Pope, we learn that:

By mutual confidence and mutual aid  
Great deeds are done, and great discoveries made.

Mutual confidence and mutual aid are basic features of the freedom to own, to produce, and to exchange: the source of great discoveries.

o Faith

What more need be said of the importance of faith than is told us in these lines:

All the strength and force of man comes  
from the faith in things unseen. He who

believes is strong; he who doubts is weak.

Strong convictions precede great actions.

Have faith!

As asserted in Proverbs XXIX:18, "Where there is no vision, the people perish." And, assuredly, the people would perish were there no hope among those of us who love liberty. In the absence of hope the free society could not exist. Why? Those who know not how to run their own lives would program ours, reducing the people to programmed robots. If such a low status be not a living death -- as related to life's high purpose -- pray tell, what is!

Now to some reflections on fear. Wrote the author and editor, C. N. Bovee:

There is great beauty in going through life without anxiety or fear. Half our fears are baseless and the other half discreditable.

As with hope, fear has several essential elements, three of which are here examined:

o Timidity

"Woe unto timid hearts and faint hands."

When men are timid, they no longer stand upright or dare each to speak what is in his own mind. Progress is not spawned by such beings. The U.S.A. is presently facing a crisis, one reason being that millions in all walks of life fear censure or loss of face or votes or business. Wrote Plautus, "A man that's timid in a crisis isn't worth a penny."

o Suspicion

Suspicious individuals -- those who always suspect others' motives -- breed suspicion in return. This casts the eye away from what's right, and searching for the right is the only remedy for imbecility.

Suspicion is no less an enemy to virtue than to happiness. He that is already corrupt is naturally suspicious, and he that becomes suspicious will quickly become corrupt. - Johnson

Suspicion is far more apt to be wrong than right; oftener unjust than just. It is no friend to virtue, and always an enemy to happiness. - Ballou

o Cowardice

To know what is right and take a conflicting position is cowardice at its worst. This evil is rooted in the fallacy that it is dangerous to be honest. The fact? It is destructive of self and others not to live a life of integrity. Fear is a hellish trait!

Socrates spoke of himself as a philosophical midwife. I would humbly aspire to a similar function, receiving from ever so many sources, and then sharing the findings with anyone interested.

Ralph Bradford, in his autobiography, One Man's Life, tells how he received a brilliant idea about the meaning of direction

from Dorothy Pillsbury. He relates that in her charming book, No High Abode, she tells of mentioning the four cardinal compass points to her Mexican neighbor, Mrs. Apodaca, and the latter replied:

"Did you know, Senora, that Los Indios have two more directions? Not only do they have North, East, South and West, but they have Up and Down. And I," she added, "have still another one. It is El Centro -- the Center. It is good to know in what direction you go...but it is muy importante -- very important -- to know where you stand right now. That is the Center."

And then Bradford elaborates the theme in three paragraphs that I would like to share with you as follows:

"East and West; North and South; Up and Down; In and Out; Center -- the place where we are. In these phrases I have reached for symbols that might help us orient ourselves in the vast dimension of time. And I come back, finally, to Up, which is both actually and metaphorically the most significant direction of all.

"When we express man's growth and progress we think always of rising from lower to higher levels -- Up -- beyond turbo-jets and rockets; Up -- to the inconceivable vastness of space, where the great stars blaze and die and are born again in the endless process of creation.

"Up, finally, to a spiritual height that transcends all else, to a vista compounded of hope and faith and desperate soul hunger. In this bewildering age of the atom, when our quest for knowledge brings us to the verge of self-destruction, and there is a chilling fear deep in every life; when we are bewildered by the cynical overturning of ancient altars and old moralities -- in such a time it is comforting to reach beyond the torments and confusions that come of our knowledge, and lean with a sense of security upon the arm of faith."

Down with fear! Up with Faith and Hope that life's high purpose may be increasingly approached!

Phoned John Sparks saying that I had written a resolution, after a meeting of the Executive Committee, appointing four FEE staff members instead of two to check annually our gold holdings in NYC. John agrees that his approval is sufficient at this time. A minor detail which the Board will confirm at the Annual Meeting.

Hazlitt on a nice phone chat.

Completed first reading of galleys. Will give them another reading.

Juanita to Shanty at 1630 and LER there at 1645. WEE-2 had a wonderful hour together, Margaret driving HER to Macy's for some shopping. Brian, Twiggy and I had a splendid dinner all HER design.

Miko called for and drove HER home at 1755. Brian, Twiggy and LER had an incomparably good dinner, my taste buds sharpened by my culinary artist. Read, count your blessings!

Phoned Juanita at 0905. Will see HER later, thank Goodness!

Worked at FEE until 1045. To Shanty for a light luncheon.

But this was for fun, our rink out of the race sometime ago. Home to Twiggy at 1510, having stopped on the way for U-No-What for U-No-Hoo!

What a disappointment! Juanita, scheduled to have Blushing Bunny and the evening with me, came for just 20 minutes and away for home. Roads very dangerous. Well, HER safety is more important than my glorying in HER Presence. I'll make the BB, eating a portion and we will have the rest Monday. Again, Count Your Blessings, Reado!

January 15. To my FEE desk at 0845 with Twiggy on guard. Will see if I can get a start on the matter of tolerance.

Dinner OK except the ham: Damn! Why? I didn't raise the pigs and don't know. Well, Twiggy liked what I couldn't eat.

Twiggy, liking what sometimes I don't, and LER to boob-tube. One resolve for tonight: I shall not listen to Two-Face on "The State of the Nation." He doesn't even understand his own state! If he did, he would go back to Georgia and raise peanuts, if indeed he could. What a test of tolerance on my part!

J lost 60¢.

Twiggy and LER to our room at 2020 -- some reading of my 1955 Journal. Buenos Noches, MS.

January 20.           Over a foot of snow during night and still falling. Juanita and Florrie walked as did Twiggy and LER, Brian shoveling snow. No one else here and probably no mail today. Well, I love all weather!

Miko drove me to St. A, departing at 0825, to play in the Kitchel. Our opponents, on account of snowed in, did not show. So McKay re-scheduled us to play against another rink, whose opponents didn't show. Ours, Johnny, Frank, LER and Timmy as a sub. We curled -- all of us -- very poorly and were defeated. Our rink must play at 1430 but Johnny will find a sub for me. Ten ends in one day is enough for me. Miko called, driving to Post Office for almost no mail, the airports have been closed.

To Twiggy at 1210. My usual light luncheon and in for laydown at 1250.

Juanita didn't arrive until 1615 but WEE-2 had a good time. For dinner we had Sid's steaks, Hash Browns, and so on. Excellent. Juanita stayed with me until 1930, Brian driving HER home.

Bob and I away at 0800 for my speaking date at Susquehanna University, Seton's Grove, Pa. -- about 185 miles. Arrived 1155.

Phoned Juanita. SHE's OK, so is Twiggy and FEE.

A light luncheon, a too-long talk by their new Prexy, not impressive to Bob or me. Bill Rock had me on at least 5 minutes late. I did some brevities and fielded some questions. Fairly well received. FEE will receive \$500. Bob and I were away for home at 1330. Were making great time and then an 18-wheeled truck jackknifed across the road and backed up traffic for miles. Lost us 45 minutes. Nonetheless, we arrived at jumping-up-and-down Twiggy at 1720. Was I ready for a tippie. That OGOM had done several things: my tray, my bed, my rice, each with a touch of ILY. Following a hair cut, Juanita phoned, making me happy. Brian and I had a fine dinner.

January 27. Fred Bacon phoned. He and Oirato Pereira coming to February Seminar.

Jeanne Cornuelle phoned from Honolulu wanting the exact wording of the George Washington quote over the fireplace in FEE's library. She's in a political hassle there and wishes to toss this at a politician who wishes to "please the people," regardless!

Husbands phoned about Sanford McCormick, a big wheel in the oil industry. Am adding him to the P/L.

Chet Anderson phoned from Milwaukee. Will be with us next Thursday forenoon.

J y L to Shanty. SHE had tipples with me and for dinner we had HER stew. Margaret dropped in at 1730, scheduled for the hospital, their evening all agog. Departed at 1745. When will I hear from MOG? I can hope! Anyway, Brian, Twiggy and LER had the best -- Twiggy and LER to boob-tube. Juanita lost 70 cents!

To our room for the night at 2015. MS phoned me a Good Night at 2040 -- out of breath. Buenos noches, mi senorita!

January 28. This Saturday's mail very skimpy due, no doubt, to weather.

Phoned Juanita. Am looking forward to seeing her this afternoon.

Worked at FEE until 1101. Wrote a note to P/L for March FREEMAN:

Dear Bill:

It's laudable to stand foursquare for freedom, but to achieve it requires that the tactic be right: seeking truth. See "Jeremiah's Job" by Gary North - p. 144.

Why not try to convince the masses? "The people who count can't be counted." Seek truth and those who count will find you out: The Remnant.

For more on the remarkable role of The Remnant, see "Isaiah's Job" written by Albert J. Nock in 1936. Copy on request.

A letter from Len III enclosing a photo of my great-grandson -- appended.

Had Margaret's sopa (v.g.) and a few other items. Off to Ardsley in a Jug Ogden match against Ardsley. It was Jim, Dennis, and Len, D and L throwing 3 rocks each. I curled rather well, far better than Jim and Dennis. Hung up brooms at end of 8th, down 17-3. What a clobbering! Home to Twiggy at 1433. In for a brief laydown.

Juanita arrived at 1550. We watched golf, had tipples and a wonderful dinner of HER design. TGOM stayed with me through our Golden Hours until 1940, departing for home. Twiggy and his roommate to the welcome hay at 2020.

Reading my 1955 Journal found an idea for another piece. Government inspects everything. What needs inspection is government.

Phoned Juanita a Good Night at 2045.

January 29. To my FEE desk at 0840 with Twiggy on guard. Will try working on "Tolerance" but any success will depend on how good is my receiving set. Sil vous plais!

Phoned Juanita at 0920. SHE may visit me this afternoon.

Finished my piece just before 1100. Thanks.

A light luncheon and to St. A. On ice at 1215: Perry, Len, Roger and Steve against Calpac. First time in quite a while I have played #3. I had 75% perfectos, better than any of the other seven players. But our rink was awful and we lost and so what! Exercise and fun. Home at 1450 and Twiggy and LER in for our laydown at 1505.

Juanita arrived at 1710 and stayed for 45 minutes.

Brian and I had a splendid dinner, LER lonesome.

To boob-tube watching golf and other things, grateful for all of my countless blessings.

Our Twiggy and I bored with boob-tube so to our room at 2015.

Phoned U-No-Whoo at 2044 to wish HER a Blessed Good Night.

January 30. A long talk with Richard Barnes (Rick), President, American Concrete Pipe Association, Vienna, Va., about Bob's and my appearances there Wednesday, March 15. Sounds like an interesting engagement.

A half hour talk with my old curling friend, Bill Haight. He's an inventive genius. I decided to buy 200 shares of stock in his enterprise at \$2.50 per share. A gamble? What isn't!

Appended is the final copy of "To Tolerate Or Not?" I like!

Will now have a whirl at "The Role of Rule." Sil vous plais!

## TO TOLERATE OR NOT?

There are those who believe something,  
and therefore will tolerate nothing; and  
on the other hand, those who tolerate  
everything because they believe nothing.

- Robert Browning

Nearly everyone feels stongly about something. Reflect on the millions who believe in socialism -- something -- and have no tolerance whatsoever for freedom. And there are those who believe in freedom -- an opposite something -- who are intolerant of any individual who does not agree with them.

On the other hand, there are numerous wishy-washy types who are barren of any ideological ideas, who will tolerate this or that something, be it socialism or freedom. Thus, we have examples of both intolerance and tolerance -- and both wrong! This matter deserves some homework if we -- freedom devotees -- are to discover what we should and should not tolerate.

Here is an insight and a foresight recorded by a Danish physician -- A. Bartholini (1597-1643) -- which, if analyzed correctly, may pave the way for a bit of enlightenment on the proper and improper uses of tolerance:

...the test of a free society is its tolerance  
of what is deplored or despised by a majority

of its members...free societies are better fitted  
to survive than closed societies.

I characterize the above as foresight because Bartholini grasped the truth that a few of us have barely learned from historical examples. This Dane, writing 3 1/2 centuries ago, had never heard of the Sumerian civilization. That first freedom-oriented society -- 5,000 years ago -- wasn't known to any of us until a century ago. Nor did he know about the Venice of Marco Polo's time. He hadn't heard of the Physiocrats, or of the turnabout in England following the work of Adam Smith, Cobden and Bright. He was unaware of the revolutionary concept that the Creator, not government, is the endower of men's rights to life and liberty -- the genesis of the American miracle. <sup>1/</sup>

Having lectured in Copenhagen and having numerous friends in that country, I learned that Denmark, in spite of many wars and monarchical governments, was in many respects freedom oriented. There was considerable competition and free exchange for several centuries. This explains why Bartholini was aware of the distinction between "free societies" and "closed societies" -- between monarchical rule and some freedom being practiced at the same time.

Admittedly, our problem is difficult. Today, in all countries, the vast majority of citizens deplore and despise the private

<sup>1/</sup> See "Eruptions of Truth," in my book, Awake for Freedom's Sake (Irvington, N.Y.: The Foundation for Economic Education, 1977), pp. 22-29.

ownership, free market, limited government way of life. To these millions, the free society is abominable, the closed society admirable. This dislike is common to all occupational categories. It finds expression from classrooms -- including "economists" -- pulpits, business and labor "leaders" and so on. Cause, indeed, to explore!

That free societies are better fitted to survive than closed societies is obvious. However, we must distinguish between what does and does not survive. Is it societies -- the people -- or governments of the dictatorial brand?

The historical record gives the unhappy answer loud and clear: all-out governments! Despotism is the rule -- pun intended! Under dictatorships, how do the people fare? The answer is -- poorly. They starve by the millions as in India and other countries. In other nations they are slaughtered or sent to Siberia, or undergo similar calamities. Life span? Short! Adam Smith reported that in the Highlands of Scotland, only 200 years ago, it was not uncommon that a mother had to give birth to twenty children to assure two reaching adulthood. Such was the poverty and the infant mortality rate!

Now reflect on the few instances where a people's government has been limited to invoking a common justice and keeping the peace. These free societies have survived for relatively

short periods. But what about the people in these rare circumstances? Limited governments leave them self-responsible and, as a result, they prosper economically, intellectually, morally, spiritually. Life span? The average infant in the U.S.A. has a life expectancy of about seventy years.

According to Bartholini, "...the test of a free society is its tolerance of what is deplored or despised by a majority of its members...." Why does this present us with a serious dilemma? A majority of our citizens deplore -- even despise -- the freedom way of life. These are people who haven't the slightest idea of the miracles that flow from the self-responsibility that limited government assures. Indeed, they are quite content to live off others and barely tolerate the idea that each should attend to his own life and livelihood.

Now reflect on the other side of our ideological coin -- on those of us devoted to freedom. Without question, we deplore unlimited government -- authoritarianism. But note this: a vast majority on our side of the coin are just as intolerant of those who sponsor the destructive schemes as the opponents of freedom are of us! Intolerance reigns which, if not overcome, makes a free society impossible. How can such a confrontation be resolved?

Obviously, we cannot rid our society of intolerance by setting our opponents straight. The more intolerant we are of them,

the more intolerant they will be of us. Who then should we set straight? Ourselves, of course! And what a task this is -- ridding the self of traits that are more or less instinctive or inborn. Only reason can come to the rescue.

Phillips Brooks brilliantly stated what your and my ambition should be:

We anticipate a time when the love of truth shall have come up to our love of liberty, and men shall be cordially tolerant and earnest believers both at once.

To love truth, to love liberty, and to be cordially tolerant: these are inseparable parts of a glorious intellectual triumvirate. Reason suggests that not one of these can be omitted without a collapse of the whole. No argument about the love of truth and the love of liberty; being cordially tolerant is the debatable issue and the one we should examine.

Samuel Taylor Coleridge, the English poet and critic, writing in 1809, gives us wise counsel: "The only true spirit of tolerance consists in our conscientious toleration of each other's intolerance." This is to say that tolerance is never a slipshod or bungling achievement. It has to be conscientious, that is, based on reason of the highest order.

If we wish others to be tolerant, neither you nor I can do much about it except to set a right example. As Burke wrote, "Example is the school of mankind. They will learn at no other."

Assuredly the first step is to realize how far even the best of us is from Infinite Wisdom. Visualize a ladder extending infinitely into space -- no ending. If I have advanced, say to the third step, the tendency is to be intolerant of those on the first and second steps -- the know-nothings! Were such intolerance warranted, then those on higher steps are equally warranted in being just as intolerant of me; and those on still higher steps intolerant of them. A world full of intolerance and barren of example!

Unless this fault be corrected, beginning with a few -- exemplars -- the free society is not possible, for no society can be both free and intolerant. The remedy? An acknowledgment of an incontrovertible fact: Mortal man possesses only infinitesimal grains of wisdom -- regardless of how far up the ladder. We humans are mere fledglings!

For anyone to be intolerant of others is to assess himself as the infallible I, the authority in rendering final judgments. Such authoritarianism is the very opposite of the freedom one avowedly stands for.

Here are four suggested behavioral attitudes:

- o No name calling of opponents or of their doctrines -- none whatsoever!
- o If a nonbeliever in freedom cannot be tolerated, don't drink tea with him, as the saying goes. Confine your association to those who can enlighten you.
- o Let those of us who deplore socialism strive for an improved understanding and exposition of freedom. A preoccupation with what's wrong is a waste of the time needed for discovering what's right.
- o No individual originates truth. Each is, at best, a receiver of Infinite Wisdom. Thus, life's ambition should be to tune in to as much wisdom as possible. Intolerance tends to turn off one's tuner.

Finally, do not be unhappy or intolerant. Remember, we are ordained to live in the world as it is. Have fun by taking a step or two up that ladder of enlightenment. Toleration will be the behavioral badge, and the more such badges the greater is the chance that freedom may grace our mortal lives!

J y L to Shanty at 1655. WEE-2 had tipples and Miko had picked up our China Garden delectible dishes -- all we could eat and what a price! \$4.50.

To boob-tube, Juanita losing 20¢. TGOM stayed until 1955 after GH, taking off for home. Reado and Twiggy in our room for the night at 2015.

January 31  
To Doc Brofsky at 0745. That tooth with me for 68 years had to be pulled.

The month ends with revenue \$28,350 more than expenditures and the "Kitty" is \$45,227 more than a year ago. Good!

I'll have to think of a new title for my piece. Juanita was right: I wrote a piece in 1972 entitled "The Role of Rules." Am changing my title by using a question posed by Plutarch nearly 2,000 years ago: "Who shall rule the rulers?"

Phoned Rogge about the times of his two lectures for Undergrad Seminars. In both Thursday afternoon and evening.

Ed and Paul like my title and the first 3 paragraphs. So I am off to a good start.

J y L to Shanty at 1655. SHE fixed my necessary cold dinner, had a tippie with me, departing for home at 1750. Our dinner was delisioso.

Twiggy and I to boob-tube. Juanita won 80 cents.

LER and Twiggy to our room for the night at 2015. Some reading of my 1956 Journal.

Phoned Juanita after 20 busy signals. We're saying our prayers for each other and for Twiggy. Comes the Dawn!

February 1. Appended is financial statement for January.

Again, as yesterday, no mail of much account. I have to believe it's not a dropping in interest but stalled along the way by reason of planes, trucks and trains not moving -- storms!

Dave Padden, Chicago, phoned about his UIP Corporation and a failure to renew. Dave reports that the company is having problems and, presently, are making no donations. Dave, however, insists that FEE will get one in the not too-distant future.

Michael Chadwick phoned from Utah. Wants us to loan them a copy of Mussati's "Constitution," so they can make a copy for their library.

Mack Braly phoned from Ada, Okla. wanting my suggestions for a new Prexy, U of Oklahoma. What a job to fill! I'll do my best. Mack is a good our-side gent.

J y L to Shanty at 1650. We had Reado's Soley Sole Martini, etc. Everything perfecto. To boob-tube. \$1.35 for Juanita. SHE departed at 1945 for choir practice. No more will we see or hear each other until tomorrow morning. However, we'll say our prayers for each other and for Twiggy. In our room for the night at 2015.
